309-796-9004 FAX

Black Hawk Area Special Education in conjunction with various local agencies provides a free screening for your child. These agencies may include your child's preschool or daycare center, school district, physician, Department of Public Health, Child and Family Connections, University of Illinois Extension office and the Regional Office of Education.

Federal, state and local grant money enables us to provide this free service for your child. Participation in screening is required for many preschool programs, and is requested by most school districts before your child enters kindergarten.

I give permission for my child to participate in screening, rescreening and referral when appropriate. I understand I will receive the results of the screening either in person or through the daycare center.
