

New Boston Elementary Students Participate in St. Jude's Math-a-Thon

According to St. Jude Children's Hospital; after more than 30 years, Math-A-Thon is America's largest education-based fundraiser. Math-A-Thon is a supplemental math education program for grades K-8 that also serves as a fundraiser for St. Jude Children's Research Hospital. This is a great project for the hospital as well as the students; money is collected for a worthy cause and students get extra practice in math!!

New Boston Elementary students during the month of February participated in St. Jude's Math-A-Thon. Students were asked to get sponsors for the fundraiser. Students then were given a math practice book to complete. After completing the book the students then were able to collect money from their sponsors. In all, New Boston Elementary students collected \$1333.40 for the hospital. Pictured are the students who participated and the prizes that were awarded to them for their participation.
